THE CHAMPION Washing Machine. PATENTED BY J. B. TUBBLL, JULY 12rn, 1844.

THIS is one of the best Labor-Saxing Machines how in use, both for Cheapness, Durability and simplicity. It saves Labor, saves Soap, saves Finel.

Simplicity. It saves Labor, saves Soap, saves Fuel.

This machine is so arranged that it keeps all the hot steam and smell of the suds from rising up in the face, and makes no slop on the floor. It is the lightest and most convenient machine to handle manufactured, and at the same time is less liable to get out of order or break.

Every lady would do well to try the Champion before purchasing any other, as we know it to be without a competitor in all the requisites of a practicable, reliable Washing Machine.

No Washing Machine ever invented or introduced in the State of Missouri, has met with such universal success and favor.

What is more caccouraging to the proprietor is, that the demand is greatest where it is best known, and it stands to-day where it has ever stood, without a rival, both in the States of Missouri and Illinois. linois.

We do not ask for certificates, but place the machine entirely upon its own merics, feeling sure that the verdict of the intelligent housewife will always be in its fattor.

R. S. DINWIDDIE, of Waverly, is sole proprieter of the counties of Lafayette and Saline, and will keep constantly on hand Washing Machines at all prominent points in the above mentioned complete.
